AFFIDAVIT

I, Fred Eagan, being first duly sworn, hereby depose and say that:

1. Affiant Fred Eagan is employed with the Hancock County Sheriff's Office assigned to the Narcotics Division. Agent Eagan has been a law enforcement officer for the past five years. Agent Eagan has been the lead investigator on several narcotic investigations which led to felony arrests and convictions. Agent Eagan has received extensive and specialized training in High risk search warrant and execution, Basic Narcotics Investigation, Advanced Narcotics Investigation and confidential informant handling.
2. On 4/21/2020 at approximately 1757 hours, Deputy Danny Gilkerson observed a 2015 Chevrolet Malibu bearing license plate Texas LJV2847 travelling westbound on I-10 at mile marker 16. Gilkerson paced the vehicle, which was travelling 78-80 MPH. Gilkerson activated his blue lights and the driver pulled over onto the right-side shoulder at Interstate 10-mile marker #13 westbound. Gilkerson made contact with the driver and advised he was stopped due to a speeding violation. The driver was subsequently identified per Texas driver's license as Mathew ROHITH. ROHITH advised Gilkerson he was returning to Texas after going to see his "girl" in Panama City. ROHITH was issued a citation for speeding (80) per citation # 083056, (written warning).
3. Upon asking ROHITH clarifying questions related to his travel, Gilkerson noticed ROHITH was very nervous and his lips were shivering/ shaking. Gilkerson asked ROHITH to exit the vehicle so Gilkerson could hear his response to the questions better. As ROHITH exited the vehicle, Gilkerson noticed ROHITH tucked something between the seats. A weapons pat down was conducted and Gilkerson explained that he witnessed ROHITH tuck something as he exited the vehicle. Gilkerson asked ROHITH if he had any weapons and ROHITH stated, "Yes I have a gun in the car." Gilkerson asked if he could retrieve the gun to clear the weapon and check the serial number, to which ROHITH agreed.
4. Gilkerson asked ROHITH about the track marks from injecting illegal narcotics on his arms. ROHITH stated he was a user but had quit. Gilkerson could tell they were fresh due to the marks on his arm being red and swollen. Gilkerson asked if he was clean and ROHITH stated, "Well I'm not that clean." Based on the aforementioned facts and circumstances, Gilkerson requested consent to search the vehicle. ROHITH declined signing the consent form, and as he did, he looked directly at the trunk of the car.
5. K9 Officer Marcus Jassby arrived on scene to conduct a free sniff of the exterior of the vehicle. K9 Faulk showed a positive indication on the vehicle and the presence of the odor of controlled substance. A search of the vehicle was conducted. During the search of the vehicle several suitcases were located in the trunk of the car. As the suitcases were opened Gilkerson located numerous Tupperware containers containing numerous controlled

substances. Inside the cabin area of the vehicle in the back seat, a black bag was located with several small bundles of US currency along with additional controlled substances.

6. The following drug exhibits were located in the vehicle:
 - Exhibit 1: suspected Methamphetamine approximately 291 grams
 - Exhibit 2: suspected Heroin approximately 56 grams
 - Exhibit 3: suspected MDMA approximately 75 grams
 - Exhibit 4: suspected Adderall approximately 56 grams
 - Exhibit 5: suspected Xanax approximately 94 grams
 - Exhibit 6: assorted unknown pills approximately 38 grams
 - Exhibit 7: suspected marijuana approximately 134 grams
 - Exhibit 8: unknown liquid substance approximately 501 grams
 - Exhibit 9: suspected Edegra Sildenafil Citrate 100mg approximately 403 grams
 - Exhibit 10: suspected steroids (Testocyp 200mg) approximately 207 grams
 - Exhibit 11: unknown pills approximately 43 grams
 - Exhibit 12: unknown assortment of pills approximately 53 grams
 - Exhibit 13: unknown pills in container
 - Exhibit 14: suspected Buprenorphine and Naloxone sublingual film approximately 10 packages
7. Three loaded weapons were located within the vehicle:
 1. AR15 short barrel 556 Anderson Manufacturing serial number 15034498
 2. Ruger GP100 .357 revolver serial number 176-29553
 3. Smith and Wesson SD9VE 9mm serial number FYK3244
8. None of the drug exhibits were sample tested for positive test results for particular substances due to the drugs containing possible fentanyl. Opening and testing these substances, which could possibly contain fentanyl, would create a risk to exposure and danger to agents handling the substances. Through my training and experience with narcotic investigations the above exhibits were able to be identified as listed.

Fred Eagan, Task Force Agent
Drug Enforcement Administration
